CHARACTERISTICS OF TOTAL STUDENTS FOR 1978-1979
U. S. SCHOOLS OF PUBLIC HEALTH

Interim Report
(October 18, 1979)

Contract No. HRA 231-77-0007

Contractor
Association of Schools of Public Health
1500 Wilson Boulevard, Suite 807
Arlington, Virginia 22209

Contractor's Project Director: William B. Parsons, M.S.P.H.

Sponsor
DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
Public Health Service
Health Resources Administration
Bureau of Health Manpower
Room 4-22, Center Building
Prince George Center
3700 East-West Highway
Hyattsville, Maryland 20782

Total Price or Estimated Cost of Contract: $359,682

ABSTRACT TO MAIN TEXT

This interim report covers total student enrollments for the 1978-1979 academic year. Each student enrolled in a School of Public Health was requested to complete a standard form which requested basic characteristics information as of October 15, 1978. On completion of these forms a predesignated individual in each school collected the forms and forwarded them to the ASPH Data Collection Center for processing. The Data Center coded the forms and forwarded them to the University of North Carolina Computer Center for keypunching and computer processing. Printouts were provided to the Data Center for development of Data Books and analysis of the information.

The total enrollment for the Schools of Public Health as of October 15, 1978 was 7722. The total number of students completing a usable form was 7106, providing an overall response rate of 92.02%. Eleven schools had 100% participation. Three schools had better than 94% participation. Two schools had between 85% and 94% participation. Three schools had between 75% and 85% participation. One school had less than 70% participation. One school, Puerto Rico, did not complete any student forms.

INTRODUCTION TO MAIN TEXT

The work of the Association of Schools of Public Health Data Center has involved more than four years of effort geared toward developing an accurate picture of the public health production system. Public health manpower has long been considered a national resource due to the multiplicity of people with different backgrounds that are the products of educational programs in the twenty-one schools. Identifying the range of backgrounds as well as the numbers and levels of persons pursuing various educational programs in public health has been the work of the Data Center. It has long been recognized that decision makers among the leadership of the Schools of Public Health, the Federal Government and the Congress require accurate and timely information on the production of public health manpower.

In 1961, James L. Troupin began collecting data for the APHA on students, graduates and faculty of Schools of Public Health. But for reasons unknown to most people this effort lapsed after nine years despite the increasing demand for data. The Data Center Project began July 1, 1974 and has been successful in surpassing the output of the previous system. What was sought and accomplished has been a cooperative effort between the schools and the Association Headquarter's office to produce and compile comparable data on applicants, students, graduates and faculty of schools as well as on expenditures and research activities among the schools. This has required a formidable commitment of time and effort on the part of key persons among the schools. This effort has brought together administrative officers and other representatives of public health education community including admissions, administration, financial and teaching personnel with the goal of establishing a viable data system.

The result is the capability to provide timely information. Through fine tuning of the system it serves as a clearinghouse for comprehensive review of the public health production system.

The products of this effort have successfully served several groups carrying out programs, research and investigations both within and outside the Schools of Public Health that require program specific data. Ad hoc requests from Educational Associations and government units as well as persons within the schools have been served. Each of these requests have been met by discrete analysis of data offered by the University of North Carolina Computer Center, which is closely involved in the processing and assimilation of data produced by the schools. Several reports have been printed that reflect in the aggregate and by school the composition, educational objectives of students and graduates, demographic descriptions of applications and faculty, reports detailing growth, quantity and nature of research being conducted in schools, and reports describing the allocation of fiscal resources within individual schools. This effort of cooperation between the Schools of Public Health and the Data Center has produced five complete sets of data (1974-1975, 1975-1976, 1976-1977, 1977-1978, 1978-1979) that go beyond the scope of any previous data.

1978-1979 ASPH STUDENT DATA
TOTAL ENROLLMENTS

MAIN TEXT

The purpose of this contract is to implement a data collection system among the Schools of Public Health which will obtain from the schools information on students, faculty, graduates, expenditures, research, organization and activities which can be evaluated, analyzed and disseminated as uniform, reliable and valid information in the aggregate for all schools.

The principal tasks required under this purpose are to (a) plan a data collection system that is adaptable to each of the Schools of Public Health and yields data which can be aggregated uniformly, (b) develop an inexpensive yet accurate system for processing raw data produced by the schools, (c) develop a complete and accurate pattern of assembly and reporting of information gained through the system, (d) maintain close liaison with each School of Public Health throughout the entire process, (e) consult with members of the Project Committee in group meetings and individually to consider changes in the system and approaches to problems which may affect the system.

There are essentially three phases that must be completed in obtaining information, processing data and producing reports on applicants, students, graduates and faculty of Schools of Public Health. This report describes the phase concerned with total student enrollments for 1978-1979.

At specified dates during the year each school issues standard forms to students and faculty on which data are to be collected. The schools receive the completed forms and verify the information requested. The completed forms are sent to the Data Center. Upon receipt, the Data Center staff codes the information for computer processing. The data processing staff at the University of North Carolina compiles the information, develops frequency distributions for evaluation as to completeness and accuracy, and generates printout tables requested by the Data Center. These printouts, once completed, are restructured by the Data Center staff, laid out for reproduction, printed and put into book form for distribution to the Government and the schools. The timetable for this process as it was carried out for the 1978-1979 student data is as follows:

Standard Data Forms on Hand at Schools	Data Due at Data Center	Tabulate and Report Completion Date
7/78	11/78	10/79

For this phase of the work overall success for the entire contract cannot be adequately described. This phase is meeting its target date for completion and it is expected that additional phases will be completed on target.

Characteristics of Students Enrolled in Schools of Public Health During 1978-1979

The response rate for all students combined was 92.02%. All schools except two had a response rate of 71.46% or more: ten had 100%, five had above 94%, one had between 85% and 94%, three had between 70% and 84%, one had less than 70%, and one, Puerto Rico, did not respond at all to the survey. Massachusetts, with its response rate of 55.08%, accounted for only 53 of the students who did not respond, which permitted the total response rate to remain high. A list of schools with total enrollments and response rates is included in Addendum I, page 26.

All tables in the report show the total of students responding to the form rather than total enrollments. No attempt has been made to determine the characteristics of non-respondents.

In the following pages of the main text aggregate tables have been developed with a narrative pointing out significant items in each table. Each table has page reference numbers to the detailed tables in Addendum I.

TABLE 1. SEX BY RACE

SEX	AM IND	HAWAIIAN	ASIAN	BLACK	HISPANIC	WHITE	UNKNOWN	ROW TOTAL
MALE	31	3	313	257	115	2529	119	3367
								47.4
FEMALE	44	9	264	275	105	2923	84	3704
								52.1
UNKNOWN	0	0	4	3	0	22	6	35
								0.5
COLUMN	75	12	581	535	220	5474	209	7106
TOTAL	1.1	0.2	8.2	7.5	3.1	77.0	2.9	100.0

The total number of minority students responding to the survey is 1423 (20.03%) of the total students. The distribution of males and females among the minority groups varies within the individual groups: American Indians/Alaskan Natives have 17.4% more females than males; Asians/Pacific Islanders have 8.5% more males than females; Blacks have 3.4% more females than males; Hispanics have 4.6% more males than females; and Whites have 7.2% more females than males. In the aggregate females outnumber males by 4.7%. Out of the 209 students who did not classify themselves as to race, males outnumbered females by 16.7%. Only 35 (0.5%) students failed to classify themselves as either male or female.

For more detailed tables, see Addendum I, pages 45-47.

TABLE 2. SEX BY CITIZENSHIP

SEX	US CITIZEN	FOREIGN	UNKNOWN	ROW TOTAL
MALE	2843	488	36	3367
				47.4
FEMALE	3472	214	18	3704
				52.1
UNKNOWN	25	5	5	35
				0.5
COLUMN	6340	707	59	7106
TOTAL	89.2	9.9	0.8	100.0

As noted in Table 1, the overall difference in enrollments is 4.7% more females than males. U. S. citizens have 10% more females than males while foreign citizens have 38.7% more males than females. Out of the 3367 male students 84.4% are U. S. citizens, 14.5% are foreign citizens, and 1.1% are of unknown citizenship. Out of the 3704 female students 93.7% are U. S. citizens, 5.8% are foreign citizens, and 0.5% are of unknown citizenship.

For more detailed tables, see Addendum I, pages 42-43.

TABLE 3. FULL-TIME/PART-TIME STATUS BY CITIZENSHIP

	FULLTIME	PARTTIME	UNKNOWN	ROW TOTAL
US CITIZEN	4741	1252	347	6340
				89.2
FOREIGN	564	89	54	707
				9.9
UNKNOWN	25	31	3	59
				0.8
COLUMN	5330	1372	404	7106
TOTAL	75.0	19.3	5.7	100.0

Out of the 6340 U. S. citizens 74.8% are full-time, 19.7% are part-time, and 5.5% did not specify enrollment status. A larger percentage (79.8%) of foreign students are enrolled full-time and a smaller percentage (12.6%) are enrolled part-time. The difference in full-time enrollment status between U. S. and foreign students is 5%. Out of the 404 students who did not indicate enrollment status, 347 were U. S. citizens and 54 were foreign citizens.

For more detailed table, see Addendum I, page 51.

1978-1979 ASPH STUDENT DATA
TOTAL ENROLLMENTS

TABLE 3A. SEX BY FULL-TIME/PART-TIME STATUS

SEX	FULLTIME	PARTTIME	UNKNOWN	ROW TOTAL
MALE	2544	655	168	3367
	47.4			
FEMALE	2765	706	233	3704

	0.5			
COLUMN TOTAL	5330	1372	404	7106
	75.0	19.3	5.7	100.0

In comparing full-time status, 75.6% male students are full-time as compared to 74.6% female students. There are 0.4% more part-time male students than female. Out of those students not specifying enrollment status, 168 are males and 233 are females.

For more detailed tables, see Addendum I, pages 52-53.

TABLE 3B. RACE BY FULL-TIME/PART-TIME STATUS

RACE	FULLTIME	PARTTIME	UNKNOWN	ROW TOTAL
AM IND	62	10	3	75
	1.1			
HAWAIIAN	11	1	0	12
	0.2

	2.9			
COLUMN TOTAL	5330	1372	404	7106
	75.0	19.3	5.7	100.0

The percentages (from high to low) of full-time students, arranged by racial groups, are: Hawaiians - 91.7%, American Indians/Alaskan Natives - 82.7%, Hispanics - 79.5%, Blacks - 78.3%, Asians/Pacific Islanders - 78.1%, Whites - 74.6%. Out of those students not responding to this question, Hispanics had the largest percentage with 6.4%, followed by Blacks with 6.0% and Whites with 5.8%.

For more detailed tables, see Addendum I, pages 54-56.

TABLE 3C. SEX BY PERCENT OF FULL-TIME LOAD

SEX	09% OR LESS	10% TO 19%	20% TO 29%	30% TO 39%	40% TO 49%	50% TO 59%	60% TO 69%	70% TO 79%	80% TO 89%	90% TO 99%	UNKNOWN	NOT APPL	ROW TOTAL

The majority of students (5330 - 75%) enrolled in Schools of Public Health are full-time, 1335 (18.8%) are part-time, and 442 (6.2%) are unknown as to enrollment status. Out of the total students enrolled part-time 6.4% are enrolled for less than 30% time, 8.6% for more than 30% but less than 70% time, and the remaining 3.7% for more than 70 % time.

For more detailed tables, see Addendum I, pages 52-53.

In comparing male and female students enrolled by degree program, there are 64.2% more females enrolled in the bachelor's program, 15.3% more females in the MPH program, and 12.4% more males in the MSPH program. In the remaining master's programs, there are 2% more male students than female students.

The distribution of male and female students among doctoral programs are: 6% more females in the DrPH program, 15.9% more males in the PhD program, and the remaining doctoral programs have 18.4% more males.

All other programs (MD/MPH, Post Doctoral, and Others) have 24% more males than females. Special students have 16.7% more females than males.

Out of the total students enrolled, 1312 (18.5%) are in the master's programs other than MPH or MSPH, 298 (4.2%) are in doctoral programs other than DrPH or PhD, and 254 (3.6%) are in other programs.

For more detailed tables, see Addendum I, pages 61-67.

	6.1	9.4	3.2	0.7	0.3	0.3	0.7	2.1	0.4	1.5	100.0

As noted in Table 4 the six degrees (from high to low) sought by students in Schools of Public Health are the MPH, PhD, MS, MSPH, DrPH, and ScD. There is some variation in the order in which the individual race groups are enrolled in the degree programs. The race groups are shown below with the three principal degrees which each group is seeking.

American Indians/ Alaskan Natives	Hawaiians	Asians/Pacific Islanders	Blacks	Hispanics	Whites
MPH (77.3%)	MPH (50.3%)	MPH (47.5%)	MPH (58.5%)	MPH (59.1%)	MPH (47.6%)
MSPH (6.7%)	PhD (16.7%)	MS (18.5%)	MSPH (8.0%)	DrPH (5.5%)	PhD (10.0%)
DrPH (5.3%)		PhD (9.0%)	DrPH (6.7%)	PhD (5.5%)	MS (9.2%)

More Blacks (6.7%) are enrolled in the DrPH program than Whites (6.1%). The breakdown for the Phd program is: Whites - 10%, Asians - 9.0%, Blacks - 5.2%.

For more detailed tables, see Addendum I, pages 68-80.

The majority of students (75%) are enrolled for full-time study in Schools of Public Health. Those degree programs which have more than 10% of the students enrolled part-time are: MS Hygiene - 38.7%, DrPH - 35.5%, Other Doctoral - 33.3%, MIH Industrial - 20%, PhD - 18.1%. It should be noted that 404 (5.7%) students did not classify themselves as to full-time or part-time.

There are no detailed tables in Addendum I.

	4.4	1.7	5.3	3.8	2.4	6.9	2.4	0.5	0.5	0.9	3.2	100.0

The rank order for the top eleven areas of specialization for all students combined is:

1. Health Administration - 16.2%
2. Epidemiology - 12.4%
3. Environmental Health - 11.6%
4. Biostatistics - 6.9%
5. Public Health Education - 6.9%
6. Nutrition - 5.3%
7. Maternal and Child Health - 4.4%
8. Occupational Health - 3.8%
9. Hospital Administration - 3.7%
10. Biomedical Laboratory Sciences - 3.6%
11. International Health - 3.4%

The rank order for the top eleven areas for male students is:

1. Environmental Health - 16.7%
2. Health Administration - 16.7%
3. Epidemiology - 14.1%
4. Biostatistics - 8%
5. Occupational Health - 5.3%
6. Hospital Administration - 5.1%
7. Biomedical Laboratory Sciences - 4.4%
8. Public Health Education - 4.2%
9. International Health - 3.1%
10. Behavioral and Social Sciences - 2.7%
11. Maternal and Child Health - 2.4%

The rank order for the top eleven areas for female students is:

1. Health Administration - 15.6%
2. Epidemiology - 10.9%
3. Public Health Education - 9.3%
4. Nutrition - 8.2%
5. Environmental Health - 6.9%
6. Maternal and Child Health - 6.2%
7. Biostatistics - 6%
8. Public Health Nursing - 4.3%
9. International Health - 3.8%
10. Health Policy Analysis - 3.6%
11. Behavioral and Social Sciences - 3.2%

One area of specialization, Behavioral and Social Sciences, did not show up in the top eleven areas for all students, but showed up in the top eleven areas for male and female students. Females did not have entries for Biomedical Laboratory Sciences, Hospital Administration, and Occupational Health in their top eleven areas, but the top eleven areas for all students combined do. Females show Health Policy Analysis and Public Health Nursing in their top eleven areas but are not included in the top eleven areas for all students.

For more detailed tables, see Addendum I, pages 85-91.

The eleven areas of specialization the majority of students are enrolled in are the same as those in Table 7. There are six areas (Behavioral and Social Sciences, Health Planning, Health Policy Analysis, Mental Health, Population Studies, Public Health Nursing) not included in the top eleven which did fall in the top eleven for certain racial groups. These areas are distributed below according to racial groups, the ranks they would have taken in the top eleven, and the percentages.

American Indians/Alaskan Natives
2. Beh/Soc Sc (16%) 9. PH Soc Wk(4%)
5. Hlth Plan (5.3%) 11. PH Nurs(2.7%)
8. Matl Hlth (4%)

Out of the total students responding, 1821 (25.6%) did not provide any information on amount of education or training since obtaining a bachelor's degree. The majority of students (3880 - 54.7%) had seven months or more of education or training since obtaining a bachelor's degree. A little less than two-thirds of this group had 3 1/2 years or less of education or training, and the remainder had 3 1/2 years or more. More male students (2010 - 59.7%) had education or training after a bachelor's degree than female students (1853 - 50%). Out of those students with 3 1/2 years of education or training, male students exceeded female students by 13.2%.

For more detailed tables, see Addendum I, pages 150-152.

TABLE 9A. SEX BY POST BACHELOR WORK IN HEALTH AGENCY

SEX	NONE OR <=6 MOS.	7MOS. TO 1.5 YRS.	> 1.5 TO 2.5 YRS.	> 2.5 TO 3.5 YRS.	> 3.5 TO 4.5 YRS.	> 4.5 TO 5.5 YRS	>5.5 YRS	NOT APPL	UNKNOWN	ROW TOTAL

	18.5	11.0	10.7	9.1	6.5	4.7	15.6	1.3	22.7	100.0

Less than 20% of the students indicated no work or less than six months work in a public health agency. 22.7% of the students did not respond to the question. The remaining students, except for the 1.3% to whom the question did not apply, had seven months or more work experience after a bachelor's degree and are broken down as follows: 7 months to 2 1/2 years - 21.7%, 2 1.2 years to 5 1/2 years - 20.3%, and more than 5 1/2 years - 15.6%. There is very little difference between male and female students in the amount of work experience after a bachelor's degree. Overall 7.2% more females had seven months or more work experience than did males. The greatest difference occurred in the "more than 5 1/2 year" group where female students exceed male students by 4.4%.

For more detailed tables, see Addendum I, pages 160-162.

TABLE 9B. SEX BY TYPE OF HEALTH AGENCY LAST EMPLOYED

SEX	NOT APPLIC	FED GOVT	STATE GOVT	LOCAL GOVT	FOREIGN GOVT	NON PROFIT	PROPRIETARY	UNIVERSITY	OTHER	UNKNOWN	ROW TOTAL

Those students who had previous work experience prior to enrolling in a School of Public Health were asked to check off the type of agency where they had been employed. The two agencies or organizations who had employed more students were non-profit agencies (10.6%) and universities (13.6%). The breakdown on the other agencies is: foreign government - 1.3%, all U. S. government (federal, state, local) - 18.8%, proprietary agencies - 3.9%. There is some variation in the types of agencies where male and female students were employed: 3.6% more males in federal government, 0.4% more males in state government, 1.3% more females in local government, 0.8% more males in foreign government, 5.3% more females in voluntary agencies, 1.3% more females in proprietary agencies, 3.8% more females in universities, 0.3 % more females in other agencies.

As noted in Table 9A, 18.5% of the students enrolled in Schools of Public Health had less than 6 months or no work experience prior to public health training. Students with more than 7 months work experience represented 57.6% of the student body. There is very little variation in the percentages of students in each of the racial groups with work experience. The percentages are as follow: American Indians/Alaskan Natives - 59.9%, Whites - 59.4, Hispanics - 59.1%, Blacks - 52.4%, Asians/Pacific Islanders - 50.6%.

For more detailed tables, see Addendum I, pages 163-168.

TOTALS	92	5945	576	869	1384	13	251	568	80	21	15	43	7106

There are 9713 known degrees among the 7106 students responding, averaging 1.37 degrees per students. If one assumes that all students enrolled in the Schools of Public Health have a bachelor's degree, the degrees would number 10,874 or 1.53 degrees per student. This assumption would more nearly match the information noted in Table 9 where 54.7% of the students responding had at least seven months or more of education or training after a bachelor's degree. Even though the question was clear, many graduate students (16.3%) did not record a bachelor's degree. The degrees (percentages based on students responding) held by students as noted in the survey are: Bachelor's - 83.7%, Prior Masters - 31.6%, Nursing - 8.1%, Doctorate other than MD or DDS - 3.7%, MD or DDS - 9.1%. Below prior degrees are grouped with five known professional categories that have the highest student representation.

Prior Bachelor's
Health Sciences (21.3%)
Biological Sciences (13.1%)
Administrative Sciences (7.7%)
Education/Health Education (6.9%)
Social Sciences (5.9%)

Prior Masters - School of Public Health
Health Sciences (24.9%)
Biological Sciences (13.5%)
Administrative Sciences (9.5%)
Math Sciences (7.6%)
Education/Health Education (7.2%)

Prior Masters - Non-School of Public Health
Health Sciences (18.6%)
Social Sciences (16.2%)
Biological Sciences (10.8%)
Education/Health Education (10.1%)
Administrative Sciences (9.3%)

The majority of students with a prior doctoral degree, including MD and DDS, had a prior professional category in Health Sciences. A small number of students with doctorates from non-Schools of Public Health classified in several of the professional categories.

For more detailed tables, see Addendum 1, pages 137-148.

TABLE 14. SEX BY METHODS OF PAYING EDUCATIONAL COST

	TRAINEE ETC.	EMPLOYER SUPSIDY	VETS BENEFITS	P-T WORK	F-T WORK	LOANS	FAMILY	SAVINGS	UNKNOWN	# OF CASES
MALES	1671	473	205	443	784	576	612	1102	304	3367
FEMALES	2169	332	36	401	1010	860	1054	1365	267	3704
UNKNOWN	16	4	0	5	9	3	5	7	9	35
TOTALS	4056	809	241	849	1803	1439	1671	2474	580	7106

Students in Schools of Public Health use a variety of methods to pay educational cost. The 7106 respondents used 13,344 methods to pay their educational cost, which indicates most students use more than one source of funds for living expenses and tuition while pursuing studies in public health. Traineeships, scholarships, fellowships, and grants were the leading sources of support for those students responding with 57.1%; followed by savings (34.8%), part-time work (25.4%), family help (23.5%), loans (20.3%), full-time work (11.9%), employer subsidy (11.4%), and veterans benefits (3.4%).

In comparing the differences in the utilization of methods of paying education cost between male and female students, males use the following more: veterans benefits (5.1%), employer subsidy (5%), and full-time work (2.4%). Females use the following more: family assistance (10.3%), loans (6.1%), savings (4.2%), part-time work (4%), and traineeships, scholarships, fellowships, and grants (3%). Percentages are based on total methods for males/females.

for more detailed tables, see Addendum 1, pages 109-111.

TABLE 15. RACE BY METHODS OF PAYING EDUCATIONAL COST

	TRAINEE ETC.	EMPLOYER SUPSIDY	VETS BENEFITS	P-T WORK	F-T WORK	LOANS	FAMILY	SAVINGS	UNKNOWN	# OF CASES
AMERICAN IND.	61	12	2	6	9	9	6	12	4	75

STUDENT STATISTICAL FORM

The following information is requested so that the School of Public Health can demonstrate its role in meeting national health manpower needs. The information you provide will be used to develop statistics. Your individual responses will be kept confidential. Your care and attention in completing the form accurately will be greatly appreciated.

1 8 _____ FOR OFFICE USE ONLY
1 2 3 4 5

15 SCHOOL: UNIVERSITY OF PUERTO RICO SCHOOL OF PUBLIC HEALTH
6 7

8

1. Sex: 1 ☐ Male 2 ☐ Female

9 10

2. Year of Birth: 1 9 _ _

11

3. Are you currently a citizen of the U.S. or holder of a U.S. permanent resident visa? (CHECK ONLY ONE OPTION.)

12 13

1 ☐ If YES, what is your state of legal residence?

_____

14 15

2 ☐ If NO, what is your country of citizenship?

_____

16

4. Other than yourself, how many people are dependent on you for 50% or more of support?

☐ None

Please specify number: _____

17

5. Race/ethnic:

Race/ethnic designations as used by the School of Public Health do not denote scientific definitions of anthropological origins. Please select the group to which you feel you belong or identify with. (CHECK ONLY ONE GROUP.)

1 ☐ American Indian or Alaskan Native – Pertains to descendents of the original peoples of North America.

2 ☐ Hawaiian – Pertains to descendents of the original peoples of Hawaii.

3 ☐ Asian or Pacific Islander – Pertains to descendents of the original peoples of the Far East, Southeast Asia or the Pacific Islands, excluding Hawaii. For example, this area includes China, Japan, Korea, the Philippine Islands and Samoa.

4 ☐ Black, not of Hispanic Origin – Pertains to descendents of any of the Black racial groups.

5 ☐ Hispanic – Pertains to descendents of the original peoples of Spain, Mexico, Puerto Rico, Cuba, Central or South America or peoples of other Portuguese or Spanish culture, regardless of race.

6 ☐ White, not of Hispanic Origin – Pertains to descendents of the original peoples of Europe, North Africa, the Middle East or the Indian Subcontinent.

6. What degrees do you hold? If you hold a foreign academic or professional degree, check the box which most nearly represents its American equivalent. If you are unsure of what that is, enter degree under "Other (SPECIFY)." (PLEASE CHECK THE APPROPRIATE BOX FOR EACH DEGREE THAT YOU HOLD, INCLUDING BACHELORS).

☐ None — 18
☐ Bachelors — 19
☐ Degree in Nursing — 20
☐ Masters from a School of Public Health — 21
☐ Masters from a non-School of Public Health — 22
☐ Doctorate from a School of Public Health — 23
☐ Doctorate, other than M.D. or D.D.S., from a non-School of Public Health — 24
☐ M.D. — 25
☐ D.D.S. — 26
☐ Other (SPECIFY): _____ — 27

28 29

7. Please indicate the calendar year your last degree was awarded:

1 9 _ _

30 31

8. Please indicate the program in which you are presently enrolled or accepted for study by the School of Public Health (CHECK ONLY ONE.)

DEGREE PROGRAM

1 ☐ Bachelors

Masters

2 ☐ Public Health (M.P.H.)
3 ☐ Science Public Health (M.S.P.H.)
4 ☐ Science (M.S.)
5 ☐ Science Hygiene (M.S. Hygiene)
6 ☐ Hospital Administration (M.H.A.)
7 ☐ Health Services Administration (M.H.S.A.)
8 ☐ Health Sciences (M.H.S.)
9 ☐ International Health (M.I.H.)
10 ☐ Industrial Health (M.I.H.)
11 ☐ Public Health and Tropical Medicine (M.P.H./T.M.)
12 ☐ Science Environmental Engineering (M.S.E.E.)
13 ☐ Other Masters

/ 1 / 8 / / / / ID
1 2 3 4 5

/ 1 / 5 / School ID
6 7

8. (Continued):

Doctoral

14 ☐ Public Health (Dr P.H.)
15 ☐ Philosophy (Ph.D.)
16 ☐ Science (Sc.D.)
17 ☐ Health Sciences (D.H.Sc.)
18 ☐ Other Doctorate _____
19 ☐ Joint M.D./M.P.H.

NON-DEGREE PROGRAM

20 ☐ Post Doctoral, No Degree
21 ☐ Special Student
22 ☐ Other

/ / 32 33

9. Month and Year in which you first enrolled in your current degree program:

/ / 34 35

☐☐ Month 1 9 ☐☐ Year

/ / 36 37

10. Please check the department or area of specialization in which you will concentrate most of your course work. (CHECK ONLY ONE.)

1 ☐ Behavioral and Social Sciences
2 ☐ Biomedical Laboratory Science
3 ☐ Biostatistics
4 ☐ Dental Public Health
5 ☐ Dietetics
6 ☐ Environmental Health
7 ☐ Epidemiology
8 ☐ Gerontology
9 ☐ Health Administration
10 ☐ Health Planning
11 ☐ Health Policy Analysis and Planning
12 ☐ Hospital Administration
13 ☐ International Health
14 ☐ Maternal and Child Health
15 ☐ Mental Health
16 ☐ Nutrition
17 ☐ Occupational Health
18 ☐ Population Studies
19 ☐ Public Health Education
20 ☐ Public Health Nursing
21 ☐ Public Health Social Work
☐ Other (SPECIFY) ___ _____

11. From what source(s) do you obtain funds for meeting educational costs and living expenses during this academic year? (CHECK AS MANY AS APPLY.)

Instructions: The following are methods by which students finance their education. "Traineeship, Fellowship, Scholarship, Grant" should be checked if you are receiving support that has no payback requirement beyond the possibility of working in the field for a specified period of time. "Subsidization by employer" should be checked if you are receiving financial assistance by agreement from an employer for whom you worked prior to entry into the School of Public Health. The remaining items listed are self-explanatory.

☐ Traineeship, Fellowship, Scholarship, Grant (If uncertain, check with the School administration.) / 38
☐ Subsidization by employer (PLEASE ANSWER QUESTION 12.) / 39
☐ Veterans Educational Benefits / 40
☐ Full-time employment during school year / 41
☐ Part-time employment during school year / 42
☐ Loans / 43
☐ Immediate Family or Relatives (includes working spouse) / 44
☐ Personal Savings / 45

12. If you checked employer subsidy in question 11, please indicate the type of support being provided. (CHECK ALL THAT APPLY.)

☐ Full salary / 46
☐ Partial salary / 47
☐ Tuition and fees / 48
☐ Books, supplies / 49
☐ Transportation / 50
☐ Allowance for living expenses / 51
☐ Other / 52

/ 1 / 8 / / / / ID
1 2 3 4 5

/ 1 / 5 / School ID
6 7

/ / / /
53 54 55 56

13. What was your professional category prior to entering your public health training? (CHECK ONLY ONE.)

Health Sciences (1)

1 ☐ Audiologist
2 ☐ Dental Hygienist
3 ☐ Dentist
4 ☐ Dietitian
5 ☐ Epidemiologist
6 ☐ Nurse
7 ☐ Nutritionist
8 ☐ Occupational Therapist
9 ☐ Optometrist
10 ☐ Pharmacist
11 ☐ Physical Therapist
12 ☐ Physician
13 ☐ Podiatrist
14 ☐ Radiation Therapist
15 ☐ Rehabilitation Therapist
16 ☐ Respiratory Therapist
17 ☐ Speech Therapist
18 ☐ Veterinarian

Biological Sciences (2)

19 ☐ Bacteriologist
20 ☐ Biologist
21 ☐ Entomologist
22 ☐ Laboratory Scientist
23 ☐ Medical Technologist
24 ☐ Microbiologist
25 ☐ Parasitologist
26 ☐ Physiologist
27 ☐ Virologist
28 ☐ Zoologist

Mathematical/Statistical Sciences (3)

29 ☐ Accountant
30 ☐ Biostatistician
31 ☐ Demographer
32 ☐ Mathematician
33 ☐ Statistician

Chemical Sciences (4)

34 ☐ Biochemist
35 ☐ Chemist
36 ☐ Toxicologist

13. (Continued)

Information Systems/Data Management Sciences (5)

37 ☐ Computer Programmer/Data Processor
38 ☐ Information Systems Specialist
39 ☐ Librarian
40 ☐ Medical Record Administrator

Physical Sciences (6)

41 ☐ Geologist
42 ☐ Health Physicist
43 ☐ Physicist

Social/Behavioral Sciences (7)

44 ☐ Anthropologist
45 ☐ Psychologist
46 ☐ Social Worker
47 ☐ Sociologist

Environmental Sciences (8)

48 ☐ Architect
49 ☐ Engineer
50 ☐ Environmental Scientist
51 ☐ Industrial Hygienist
52 ☐ Sanitarian

Administration and Planning (9)

1978-1979
STUDENT STATISTICAL FORM
EDITORIAL COMMENTS

ITEM NUMBER	ITEM TITLE	COLUMN(S)	COMMENTS
2	Date of Birth	9-10	Birthdates greater than or equal to 1962 should be coded unknown.
3	Citizenship	11-15	If column 11 is answered "yes" (1), code columns 14-15 as "not applicable" (77). Columns 12-13 will be either the code for the state specified or "not answered" (99) if the space for the state was left blank. If column 11 is answered "no" (2), code columns 12-13 as "not applicable" (77). Columns 14-15 will be either the code for the country specified or "not answered" (99) if the space for the country was left blank. If column 11 was not answered, but an answer was written for columns 12-13 or 14-15, edit by completing column 11 appropriately. Code multiple answers as unknown. (If both "yes" and "no" are checked, code columns 11-15 as unknown. If "yes" is checked, but two states are written, code column 11 "yes" and columns 12-13 unknown. If both a state and country are written, edit columns 11-15 to unknown.
4	Dependents	16	Code 1-7 as stated by respondent in column 16.
5	Race	17	Code multiple answers as unknown (9).
6	Prior Degrees	18-27	If column 18, "none," has been answered, code columns 19-27 "not applicable" (7). Do not edit anything that has not been checked, even if the respondent has higher degrees. Only foreign degrees specified in "other" are to be coded 2 (see Appendix A for a list of some of these foreign degrees). Others may exist that are not listed in the Appendix. Code them 2, foreign degree. Edit the "specifies" back wherever possible, i.e., J.D., L.L.D., D.V.M., D.M.D., O.D., Ph.D., etc. may edit back to "doctorate, other than M.D....", M.S.W., M.A., M.S., M.A.T., etc. may code back to "masters from a non-School of Public Health." As per instructions to the Schools, students with degrees in nursing were expected to "double answer" this question, i.e., a student with a B.S. in nursing would check column 19 for bachelors and column 20 for degree in nursing.
7	Year of Last Degree	28-29	If a response was given column 18, "none," code columns 28-29 as "not applicable" (88). Code any responses greater than or equal to 1979 as unknown (99).
8	Degree Program	30-31	Code columns 30-31 as 01-21. Do not make a special code for "other" responses. Code multiple answers as unknown (99). Code joint masters as "other masters" (13). Code joint doctorate as "other doctorate" (18). Any degrees written in should be coded back to "other masters" or "other doctorate." If they cannot be coded back, code as "other" (22).
9	Date of Enrollment	32-35	Code as given. Any responses which are unreasonable (year greater than 1978 or month greater than 12), code as unknown (99).
10	Area of Specialization	36-37	Multiple answers are coded "more than one answer" (55). Edit "other, specifies" into the 20 basic codes wherever possible. Those which cannot be edited back will be coded "other" (22). To edit back use Appendix B, which categorizes specialization areas into the major categories listed in question 11. Any area of specialization which cannot be coded back, code "other" (22).

1978-1979
STUDENT STATISTICAL FORM
EDITORIAL COMMENTS

ITEM NUMBER	ITEM TITLE	COLUMN(S)	COMMENTS
11	Source(s) of Financial Assistance	38-45	Code as given. First, code items 12 and 17 as given. Force column 38 to agree with item 17 and column 39 with item 12 as described below.
12	Employer Subsidy	46-52	If any of columns 46-52 are checked, then column 39 must be edited to 1 = answered. In this case, boxes checked in columns 46-52 will be coded 1 = answered and blank boxes coded 9 = unknown. If none of columns 46-52 are checked, but column 39 is checked, column 39 will be left 1 = answered, and columns 46-52 will be 9 = unknown. If none of columns 46-52 are checked and column 39 is also left blank, but any of columns 38, 40-45 have been checked, then column 39 is interpreted as "no" (9) and columns 46-52 will be coded "not applicable" (7). If all of columns 38-52 (items 11 and 12) are blank, then columns 46-52 will be coded unknown (9). Make sure item 17 is coded and edit column 38 to agree with item 17 before using this logic.
13	Prior Professional Category	53-56	Edit back to subcategories any responses specified in "other" that can be edited back. Any response which is edited back will receive the major category code and subcategory of the edited answer. If a specified answer cannot be edited back into a specific category already listed but does fit into a general category, code columns 53-54 with the general category and code columns 55-56 as "other" (67). If two subcategories within the same general category, leave the general category code as is, code columns 55-56 as unknown (99). If two subcategories in different general categories are checked, code columns 53-56 as unknown (99). If a respondent checked two subcategories, one of which is "other, specify," ignore "other, specify" and code the other category that was checked.
14 A,B,C	Post Bachelor Education and Work Experience	57-59	If column 18, "no prior degree," is answered, code columns 57-59 as "not applicable" (7) regardless of the responses given in items 14A, 14B, 14C. If column 27 is answered and the response specified is less than a bachelors (see Appendix A for example), code columns 57-59 as "not applicable" (7) regardless of the responses given in item 14. It is to be assumed that if only degree in nursing is checked, items 14A, 14B, 14C may be correctly answered and coded as shown by the respondent. If item 6 on "prior degrees" is entirely blank, code items 14A, 14B, 14C as shown by number of years or unknown, if left blank. If any of "prior degrees (columns 19-27) are answered and this (these) response(s) is a Bachelors or higher, code columns 57-59 as given according to the codes or, if left blank, code as unknown (9).
15	Type of Health Agency	60	If column 58 is blank code item 15 (column 60) as "not applicable" (0). Item 15 will be coded as answered only when column 60 has been checked. If two or more responses have been checked, code as unknown (9).
16A	Full-time/Part-Time Status	61	Code as given. If left blank, code as unknown (9).
16B	Percent of Full-time Load	62-63	Code percents as given, rounding to nearest whole percent. Question 16A will be edited to agree with 16B as necessary. If columns 62-63 are answered with any percent less than 100%, column 61 will be edited to part-time (2). If columns 62-63 are answered 100%, edit column 61 to full-time (1) and code columns 62-63 as "not applicable" (77). If columns 62-63 are blank, then the answer to item 16A will determine the coding of columns 62-63 as follows: if column 61 is "1" (full-time), code columns 62-63 as "not applicable" (77); if column 61 is "2" (part-time), code columns 62-63 as unknown (99); if column 61 is "9" (no answer), code columns 62-63 as unknown (99).

1978-1979
STUDENT STATISTICAL FORM
EDITORIAL COMMENTS

ITEM NUMBER	ITEM TITLE	COLUMN(S)	COMMENTS
17	Source of Grants and Awards	64-76	If any of columns 64-76 are checked, edit column 38 (if necessary) as 1 = answered. In this case, boxes checked in columns 64-76 will be coded 1 = answered and blank boxes coded 9 = no answer or unknown. If none of columns 64-76 are checked but column 38 has been checked, then column 38 will be edited to 9 = no and columns 64-76 will be 7 = not applicable. If none of columns 64-76 are checked and column 38 is also left blank, then column 38 is interpreted as "no" (9) and columns 64-76 will be coded "not applicable" (7).

APPENDIX A

(Item 6, Column 27)

Items to be coded as foreign degrees (code 2). Others may appear that are not included in this list.

1. D.S.M.
2. M.B., B.C.H. (South Africa)
3. Equivalent of B.A. in England
4. B.D.S. - Diploma of Conservative Dentistry
5. Cambridge School Certificate
6. Diploma in Public Health - Egypt

"Other, specifies" indicated in item 6 that are not equivalent to a Bachelor's degree. Others may exist that are not included in this list.

1. R.N.
2. Teaching Certificate
3. A.D. Nursing
4. Certificate in Physical Therapy
5. A.A.
6. Midwife Certificate
7. Diploma in Dietetics
8. Diploma in Hospital Administration
9. Certificate in Food Marketing
10. Certificate in Clinical Microbiology
11. Diploma in Mass Communication
